PROFESSIONAL PROFILE

MSc graduate in Human Cognitive Neuropsychology with experience in quantitative research, evidence synthesis, research data preparation, and operational management. Combines a background in psychology and philosophy with staff development, technical support, and public engagement, informed by an interest in accessibility and lived experience.

EDUCATION

MSc Human Cognitive Neuropsychology

University of Edinburgh | Merit | 2024/25 programme

Dissertation: Seeing with the Brain: Mapping Current Methods and Interventions in CVI. Systematic review and evidence map of 198 studies, supervised by Dr Robert McIntosh.

BA Psychology

University of New Mexico | Summa cum laude | Minor in Philosophy

Dean's List: 2021, 2022, and 2023.

PROFESSIONAL EXPERIENCE

Reception, Administration and Training Manager

DB Chiropractic, Midlothian Chiropractic, City Chiropractic
Edinburgh and wider Midlothian, UK | May 2025 - Present

- Supported a new clinic opening and led a major migration of data between clinical software systems.
- Trained all staff and provided administration and IT support across three clinics; primarily based at a clinic serving 300+ patients per week.
- Manage appointments, patient records, payroll administration, payments, invoice checks, and stock; serve as Health and Safety Manager for the Loanhead clinic.

Technical Specialist, Genius Bar

Apple | Albuquerque, NM | October 2023 - August 2024

- Assessed technical issues, documented cases, and explained service options clearly, adapting support to each customer's level of technical familiarity.
- Consistently handled the highest appointment volume among peers and supported appointments requiring particular care and reassurance while coordinating concurrent technical tasks.

Co-General Manager and Catering Manager

Which Wich Superior Sandwiches | Albuquerque, NM | May 2020 - December 2023

- With a colleague, expanded an underperforming store's team from three to ten and developed operating procedures and structured training for staff entering employment for the first time.
- Oversaw hiring, onboarding, shifts, stock, cash handling, and opening and closing; later managed catering for three Albuquerque locations.

RESEARCH EXPERIENCE

SPV Culture & Cognition Lab

University of New Mexico | May 2023 - August 2024

- Studied psychological assessments and translated scoring requirements into a structured framework suitable for implementation in R, preparing data for subsequent research on cultural validity in forensic assessment.
- Redacted and digitised competency-to-stand-trial case files, prioritising confidentiality and encryption; mentored undergraduate research assistants.

Mindful Youth Institute

January 2023 - July 2023

- Produced graphics, managed social media, and supported outreach events in schools; coauthored two public-facing articles with Dr Julia Keller.
- Contributed to coding and testing a mindfulness game for children.

LEADERSHIP AND PUBLIC ENGAGEMENT

University representation and student activities

University of Edinburgh | 2024/25

- Served as Human Cognitive Neuropsychology Programme Representative and PPLS Postgraduate Taught School Representative, gathering feedback and attending staff-student meetings. Received a Saltire Award.
- As a Psychology Society Office Bearer through PsyCRA, led a postgraduate social and a forum on applications and postgraduate study.

Junior Docent Program

New Mexico Museum of Natural History and Science | 2013 - 2018; 2022 - 2023; summer 2026

- Progressed from Junior Docent volunteer to Teen Liaison in 2018 and Mentor in 2022 and 2023. Helped rebuild the programme after COVID, shaped training with the programme head, and oversaw volunteer learning and safety. Returned in 2026 to discuss the programme's influence on higher education.

SELECTED PRESENTATIONS AND WRITING

Stordahl, C., Kim, E., and Verney, S. *From Experience to Understanding: The Need for Phenomenological Insights into Cerebral Visual Impairment.* Poster, NMPA Fall Conference, 2023.

Stordahl, C. *Seeing with the Brain: Mapping Current Methods and Interventions in Cortical Visual Impairment.* University of Edinburgh Poster Day.

Stordahl, C., and Keller, J. (2023). The Long-Term Impact of Childhood Bullying on Brain Development; From Awareness to Action. Medium articles.
